SEWER RATES: Commercial customers may elect to be billed based on their actual water usage metered or their calculated sewer average. Once an election is made, it will remain in effect until a change is initiated by the customer. Each election will be effective a minimum of twelve months.

CAUTION

The summer months are historically high water usage periods. A selection of actual monthly usage during and prior to this time could increase the monthly sewer charges. Many customers increase their water consumption due to outside activities, swimming pool usage, sprinklers, etc. A signed authorization for the actual water usage option must be on file with the city in order to initiate the actual usage option.
